## Career Objective

Dynamic and creative professional with a passion for technology and innovation. Transitioning from a successful career as a chef to pursue a rewarding path in web development. Eager to leverage skills acquired from a Front End Development bootcamp to contribute to dynamic projects and drive digital transformation.

## Skills

- Proficient in *HTML, CSS, JavaScript*
- Experience with modern libraries and frameworks such as *React.js and Node.js*
- Strong understanding of *responsive design principles*
- Familiarity with version control systems like *Git*
- Knowledge of web development best practices and *Agile* methodology
- Excellent problem-solving and analytical skills
- Strong attention to detail and ability to meet deadlines

## Experience

June 2024 - now: **The Digital Marketing Academy SA:** Prominent institution in South Africa dedicated to providing digital marketing education and training. The Academy is known for its practical approach to

teaching, providing students with hands-on experience through practical tasks and projects. Additionally, they have partnered with Google to offer free digital skills courses, further enhancing the accessibility and value of their educational programs.

- Position: ***Intern Frontend Developer***
- Stack: *HTML, CSS, PHP, SQL, Wordpress*

## Projects

- [Suitestay](#): This is the final project from the Front End Bootcamp. It's the design of a Hotel application where you can book rooms, check nearby restaurants and fill a contact page.

Grade 100

*Stack: React.js, PrimeReact, PrimeFlex, CSS3, HTML5, npm, netlify.*

- [Weather Search](#): This application allows users to quickly and easily retrieve weather information for different locations. Whether you're planning a trip, checking the weather in your hometown, or just curious about the current conditions, this app provides a user-friendly interface to get accurate and up-to-date weather data.

Grade 100

*Stack: Javascript, JQuery, CSS3, HTML5, Web APIs.*

- [Password Generator](#): This project is designed to help you reinforce your programming skills by creating a simple yet effective password generator using HTML, CSS, and JavaScript. Whether you're new to web development or looking to enhance your skills, this project provides a hands-on experience in building a practical tool.

Grade 100

*Stack: Javascript, JQuery, CSS3, HTML5.*
